Showroom on the road

grinding deserves SOLUTIONS

The GDS Precision Liner - our mobile showroom

The Precision Liner the know-how of our specialists to your company site

The GDS Precision Liner is a mobile showroom, equipped with all the important instruments needed to offer you the perfect service and individual advice. By arrangement, we will visit you with it at your site and our experts will be fully at your disposal. We identify the improvement potential of your production on site and specifically address your needs. Together, we can develop individual solutions to fully exploit the potential of your production.

At GDS, you as a customer are our focus and we want to offer you a very special service. During a visit to our Precision Liner, we will therefore specifically address the requirements of your production and find solutions that are tailored exactly to your needs. Let us advise you on site and benefit from the competence of our experts - fully exploit the potential of your production!
